ARRIVALS.  
From San Francisco, per bark Albert, April 10—Mrs. Butcher.

## Shipping Notes.

The brigantine Consuelo sailed for Kahu-lu on March 21.  
The German bark Santa left Liverpool on March 20 for Honolulu.  
The Hawaiian bark Mauna Ala was at Port Bliakely on March 21.  
The schooner Mary E. Foster took 85 tons of coal for Makai on Monday.  
The British bark Latoket arrived at New Westminster on March 20.  
The schooner C. S. Holmes left Port Bliakely on March 21 for Honolulu.  
The Hawaiian bark Hawaiian Isles left Astoria for Honolulu on March 20.  
The barkentine Charles I. Crocker, Capt. Land, left San Francisco for Hilo, on March 24.  
The German bark Nautilus, Captain As-sing, arrived at San Francisco March 23, 21 days from Honolulu.  
The Hawaiian bark Andrew Welch, Captain Drew, sailed from San Francisco on March 23, for Honolulu.  
The schooner Alce Cooke, Captain Pen-hallow, sailed today for San Francisco with 22,000 bags of sugar, shipped by C. Brewer & Co. Domestic value, \$71,294.92.  
The \$30 rate has drawn a great crowd of coasting sailors to the office of the Ship-owners' Association. The Tugboat sec-ured a crew for a trip to Port Bliakely and back, and the Vega one for a voyage to Gray's Harbor.  
The schooner W. F. Witzman, Captain Pedersen, arrived today, 30 days from Newcastle, N. S. W., with 710 tons of coal for Castle & Cooke. The skipper reports a pleasant passage. There are five or six vessels on the way from Newcastle with coal for Honolulu.  
The bark Alden Besse narrowly escaped going ashore near the Cliff House, outside San Francisco harbor. The fog was so thick that land could not be seen and no pilot was aboard. The bark was within a scanty foot of the breakers when the tug Reiter discovered her and took her in tow.  
The Pacific Mail Company evidently does not expect to secure the contract with the Panama Railroad Company next May. The City of Sydney, due here from Panama and way ports on the 25th inst., is to be withdrawn and placed on the route between here and Hongkong. She will leave on April 14, and will carry freight only. From Hongkong she will probably go to Amoy and load tea for this port.—S. F. Ex.

## Married.

LEWIS DUDOLT—At Moanui, Molokai, April 3, Charles Kakuia Lewis to Mrs. Blanche Dudolt.

## PAYING FOR PRIVATEERS.

Hawaiian Sufferers by the Shenan-douh to Get Relief.

A Washington despatch of March 20 says, in reporting Senate proceed-ings, "A bill for the relief of the owners and crew of the Hawaiian steamer Arctic was taken from the calendar and passed."  
James I. Dowsett was shown this news and asked if he was interested in the steamer Arctic. He replied that he was not, and that the Arctic was not a steamer but a bark. The vessel he was interested in was the bark Harvey, which was burnt at Ascension Island by the rebel privateer Shenandoah. A bill for the relief of the owners and crew of the Harvey, being prior in introduction, ought to have passed the Senate be-fore that relating to the Arctic. The bark Arctic belonged to C. Brewer & Co. She was commanded by Cap-tain A. N. Tripp, lately jailor of Oahu Prison.

## Consul McKinley's Widow Dead.

Mrs. David A. McKinley, widow of David A. McKinley, died of heart failure March 23rd, at her residence at 2003 California street, San Fran-cisco. She was a native of New Wilmington, Pa., and came to Cali-fornia in the early fifties. She leaves one daughter, Mrs. George E. Moss, of San Francisco, and a brother, the Rev. Mr. Scott, of Chicago, Ill. Her husband was a brother of Governor William McKinley of Ohio. At the time of her husband's death in September, 1892, he was Hawaiian Consul-General at San Francisco, having before taking that office, been United States Consul-General at Honolulu.

J. S. King, of the U. S. S. Phila-delphia, and Reede, of H. B. M. S. Champion, are negotiating for a 100-yard foot race, best 3 in 5, to take place in about a week, for a purse of \$100.

Glade, German Consul, will forward a report of the Sister's death to her relatives in Gersheim, Prussia.

# HAWAIIAN AFFAIRS.

President Cleveland Said to Desire Pearl Harbor.

Admiral Walker May Seize the Prize—Possible Steam Line to Tahiti.

CLAIM TO PEARL HARBOR.  
The New York Herald's Washing-ton correspondent telegraphs (March 23) that the main object of the Pres-ident in the selection of Rear-Ad-miral Walker for the command of the Pacific Station is connected with the lately defined policy of the Ad-ministration in regard to the occu-pation of Pearl harbor by the United States. No doubt the President also had in mind the work of patrolling Behring sea during the principal sailing season, but the Hawaiian matter is of paramount importance.

Admiral Walker fully understands what is expected of him. He has had several long conferences with the President and the Secretary of the Navy. The general nature of his instructions was outlined to-day by a high official as follows:

The President views with concern the manifesto issued by President Dole some time ago, which stated that while the United States would be allowed to occupy Pearl harbor in accordance with the terms of the treaty of 1887, he understood the word "grant" in that treaty to mean simply "loan," and not an outright gift, as held by the State Depart-ment.

This manifesto resulted in numer-ous consultations between the Pres-ident and Secretary Gresham, who have reached the conclusion that it is high time for the United States to firmly assert its exclusive right to Pearl harbor and take possession of it. The Administration regards the treaty of 1887 as giving this harbor to the United States outright and for all time.

It is now the purpose of the Pres-ident to secure an absolute vested right in the harbor, carrying out the conditions prescribed in the treaty. These authorized the United States to improve the entrance to the har-bor and make such other improve-ments as may be necessary.

With the conditions on the islands already perturbed, it is feared the occupation of the harbor by the United States may excite further trouble. Hence it has been deemed desirable to have an experienced and wide-awake officer upon the scene, one in whom the Administration can place the utmost confidence.

Admiral Walker fully understands that the Administration will not countenance anything that savors of foreign interference with Hawaiian affairs. It is also feared that the Provisional Government will find much difficulty in framing a new constitution, and it is regarded as not beyond the bounds of probability that a revolution may ensue be-fore a permanent republican form of government is established in Hawaii, and conditions may arise which will make it necessary for the United States to land its forces for the protection of its interests, which the occupancy of Pearl harbor will make paramount to the interests of any other power. Because of its vested rights in Pearl harbor the United States will have a hold upon the is-lands which will virtually amount to a protectorate.

Rear Admiral Walker has been ordered to leave his present station as president of the Board of Inspec-tion and Survey and as president of the Stability Board on March 28 and proceed to San Francisco. At that port he will take steamer for Hon-olulu, where he will relieve Rear Admiral Irwin about April 12, just three days before the latter's retire-ment. He will hoist his flag on the Philadelphia, which will probably be his flagship throughout his whole stay, unless some vessel like the New York is ordered to those waters.

Rear Admiral Walker will be ac-companied on his passage to Hon-olulu by Lieutenant S. A. Stanton and Ensign Spencer S. Wood, who will act as flag lieutenant and flag secretary respectively. Lieutenant Stanton has been attached to the Board of Inspection and Survey and Ensign Wood has been acting as naval aide to Secretary Herbert. Their places will be filled by Lieut-enant Commander Stanton Schroeder, on the Board of Inspection and Sur-vey, and Lieutenant L. L. Remy, who will be the Secretary's naval aide.

The Tribune had a despatch the previous day, which placed signifi-cance on the countermanding of or-ders to Commodore Kirkland and the substituting of Rear Admiral Walker to the command at Hon-olulu.

It says that letters from Minister Willis represented that Great Brit-ain was seriously concerned about the destiny of the islands. The American Minister is reported to have advised Secretary Gresham that the British Minister, accepting the offi-cial utterances of the Administra-tion as expressive of the sentiments of the United States, is pursuing a course in Honolulu tending to in-crease the prestige of Great Britain and to lessen the influence of the United States.

Minister Willis has even gone so far, it is said, as to attach serious-ness to the landing at Honolulu of a number of Canadians of vigorous mold and untamable reticence. It is now said that President Cleve-land, after being condemned for his course in the Hawaiian matter by the Senate and public opinion, has experienced a change of heart, and that he has become convinced of

the necessity of properly and faith-fully protecting American interests in the islands. England, more par-ticularly, is to be made to un-derstand that she must not look envi-ously toward the islands.

It is learned that Admiral Walker is the special choice of Secretary Herbert for the service. The Pres-ident, it is said, informed Secretary Herbert of the actual condition of affairs at Honolulu and asked for the naval officer, regardless of rank, best suited for the duty, and Her-bert promptly named Admiral Walker.

There is mentioned the probabili-ty of the Charleston being sent from Montevideo to reinforce the Philadelphia and Adams. Should it be necessary, the Boston, Yorktown and Michigan would be available also.

Among other reasons advanced for giving Admiral Walker another tour of sea duty, so soon after he had finished his last cruise, is the great importance of the Pacific station just at this time and the marked ability of Admiral Walker to cope with delicate diplomatic sub-jects.

Colonel Geo. W. Macfarlane of Honolulu was interviewed regard-ing the Tribune despatch. He was not inclined to express his views. "The fact is," said he, "that I have not given the subject any thought, but I do not believe the report that the Hawaiian Government is about to apply to some other power for annexation or the establishment of a protectorate. I did hear some talk before I left Honolulu about recall-ing Minister Thurston from Wash-ington, but how true that is I have no means of knowing. There are altogether too many rumors about Hawaii, and nine out of ten of them are without the slightest founda-tion."

THURSTON NOT RECALLED.  
Thurston said in Washington that he had no knowledge of a letter of recall or that the Hawaiian Govern-ment was anxious for his presence to assist in forming a republican gov-ernment.

POSSIBLE STEAM TO TAHITI.  
In noticing the departure of M. Papinault by the barkentine Tropic Bird for Tahiti, to succeed M. Lucas as governor of the group, a San Francisco paper says: "The chances are that, in a short time, there will be steam communication between Tahiti, the Marquesas and San Fran-cisco. The French Government is negotiating with the Messageries Maritimes Company, and it is con-fidently expected that the terms will be accepted. The company's steam-ers now run between Sydney, N.S.W., and Marseilles, France, calling at Noumea, New Caledonia, both going and coming. It is proposed to add Papeete, Honolulu and San Fran-cisco to the ports of call. To secure a subsidy from the French Govern-ment the company will have to build 600-ton steamers with a guaranteed speed of seventeen knots, and which may be turned into cruisers when required. These vessels are to be ready for service by 1895."

## NO DAY FOR HAWAII.

The Senate on March 20, after having received the Tariff bill from the Finance Committee, did little else than to listen to a speech by Senator George of Mississippi on the legal aspects of affairs in Hawaii. Previous to the beginning of his speech Senator Turpie of Indiana tried to have the Senate agree mutually upon a time for the con-sideration of his Hawaiian resolution which caused quite a stir some weeks ago. Senator Dolph prevented any agreement being reached by declar-ing that he was not in favor of fix-ing any date at this time.

## Suffered From Birth

With a Severe Form of

## Scrofula Humor

"Until my boy was six years of age he was from birth a terrible sufferer from scrofula humor. Sores would appear on him and spread until as large as a Dollar and then discharge, followed by others, so that the larger part of his body was one mass of sores, all the time, especially severe on his legs and neck of his chest and on his head. The humor had a very offensive odor, and caused

## Intense Itching

We cannot tell how that poor boy suffered in all those years. Physicians did not effect a cure. At last I decided to give him Hood's Sarsaparilla, as my druggist recommended it. In about two weeks the Sarsaparilla began to have effect. The sores commenced to heal up; the flesh began to look more natural and healthy. Then the sores came off and after his body new and healthy flesh and skin formed. When he had taken two bottles he was entirely free from sores, having only the scars to show where they had been. These have all disap-peared. We are unable to express our thanks for the good
